00:05:45

The rest of this transmission.

00:05:47

1st a shin for correspondence commentary on the idea of equidistant diplomacy in the United States.

00:05:55

In our regular programs, listeners letterbox and music album.

00:05:59

Formally, a story about the great changes that have taken place in the mountain areas.

00:06:40

I.

00:06:43

I.

00:07:13

When you became.

00:07:16

A diplomacy in the United States.

00:07:25

Us Assistant Secretary of State Richard Holbrooke, in a recent speech, made a systematic study of some of the US relations in the light of their historical background, presentations and perspectives.

00:07:40

This beach has raised the eyebrows of certain.

00:07:43

In the.

00:07:44

States who ask for clarifications by the speaker.

00:07:49

The fuss was caused by nothing but a few words about the Soviet Union.

00:07:54

In fact, Mr. Holmes did not mean in any way to hurt the Soviet Union in these words.

00:08:01

All he said was that the United States.

00:08:03

Will be long its relations.

00:08:04

With China on its own merits without copying, how many triangular diplomacy of the early 70s?

00:08:12

At that time, Sono US relations.

00:08:15

Were regarded as.

00:08:16

Simple function of US relations with Soviet.

00:08:19

Union.

00:08:22

There seems nothing improper about these remarks, and no one needs to make a fuss about them.

00:08:29

Should in China in the United States, both independent powers, demand our relations independently without subjecting them to the strict triennial diplomacy?

00:08:42

Next, the two countries develop their relations in a way that is always to the lacking of the Soviet Union.

00:08:48

Of course not.

00:08:50

And you said.

00:08:51

That it would be more advantageous to the United States.

00:08:55

If you'd assumed in any handicoster.

00:08:57

And pursued an equivalency toward China and.

00:09:01

Soviet Union.

00:09:03

There's no such a thing as an introduction policy in international relations.

00:09:09

There are resource and expansion.

00:09:15

How can you assume even a full attitude towards both of them?

00:09:21

What if the human reciprocate with the same kind of policy?

00:09:26

What if they do?

00:09:27

Try to act in a way to enliking.

00:09:32

There may be various factors contributing to the idea. We produce new diplomacy.

00:09:38

Honestly, failure to make distinctions between right and wrong.

00:09:43

People want to be applicators of diplomacy, have taken the trouble to study and the principal differences inviting the state policies of China and the Soviet Union, or make a comparative study in the history.

00:09:58

In person state of.

00:09:59

Affairs of the two states.

00:10:00

Yes.

00:10:02

Secondly, the applicators of interdisciplinary have a more fear.

00:10:07

The Soviet Union.

00:10:10

No matter what the Soviet Union has done, they're afraid to fight it by speaking too.

00:10:16

Often.

00:10:16

Or even by merely.

00:10:20

Certainly they do not realize the serious consequences.

00:10:25

They say that by even handing handling of relations, they will be able to profit from all directions, not knowing that the Soviet Union will be the one complaining in the end.

00:10:38

Naturally, there will still be a handful of curses in the United States who simply can't endure China melody.

00:10:48

They continue to demand that the US government resume official relations with Taiwan.

00:10:53

This is partly.

00:10:54

Most absurd version of the approach.

00:10:59

Their proposition can.

00:11:00

Win the practice of the.

00:11:01

Union and expands of the United States.

00:11:05

In fact, by following the family distance.

00:11:10

Tremendously in the hands of the Soviet Union.

00:11:14

Moscow is nothing about even handedness.

00:11:15

Care.

00:11:19

It can gobble up.

00:11:20

Its nearby small countries like Afghanistan and Kampuchea.

00:11:25

It shows no respect for.

00:11:27

Away and big countries like the United States.

00:11:31

For over 30 years it has deployed 2/3 of its armed forces against the United States and its allies in Western Europe.

00:11:40

In the last few years, Russians have been active Alienware from the African continent in the West to the Sea of Japan in Southeast Asia in the east, and in general places they were able to run their way.

00:11:54

If things go on like this, all.

00:11:56

The long before the.

00:11:57

Soviet Union is able to block passages in the Indian Ocean and Strait of Malacca and control the entire oil resources in the Middle East and the Persian Gulf region.

00:12:09

That's Western Europe, Japan and even the United States will be reduced to a State 1/2 an hour.

00:12:18

By that 1/3.

00:12:19

World War will probably be inevitable.

00:12:23

The so-called even handedness is.

00:12:29

It was.

00:12:29

A shining.

00:12:30

Commentary introduced new diplomacy.

00:12:36
